Although the abovementioned is the current level of turnover/income and is closely related to the economic indicators, it may be more or less in future. Consequently, this certificate does not serve as a guarantee that the income reflected will continue at the same levels. Where the entity is a startup enterprise this EME certificate is valid only for contracts with a single value of less than or equal to R5 million. Should the contract value being tendered for be higher than R5 million and less than R35 million, the EME will be required to submit a QSE Verification Certificate with any tender. For contracts over R35 million a B-BBEE Verification Certificate based on the Generic Codes must be submitted

We have determined that the turnover / income is less than R5 million based on the letter of confirmation received from Deloitte & Touche Registered Auditors on the 17<sup>th</sup> of September 2012. Our conclusion is subject to an inherent limitation that procedures performed were on historical financial information that has not been subject to the audit or review. The level of Black Ownership was determined through the letter of confirmation as well as the issued share capital and subsequent investigation of share certificates and shareholder identity documents.
